1. EXECUTIVE SUMMARY

Abramovich Media LLC proposes **owner-operator field cinematography** for Uncover's **high-impact qualitative** study: **in-home interviews**, **loyalist dinner** coverage, and **aesthetic B-roll** to support Rothy's *Customer Aesthetic* initiative — **Scottsdale, AZ only**. This proposal mirrors **Option A (full market capture)** and **Option B (day rates)** for **that single market**, maps **your stated deliverables** to our **technical stack**, and sets commercial terms appropriate to a **W-9 subcontractor (1099)** engagement.

Value-based, not commodity-based: fees reflect what **editor-ready, participant-organized, brand-safe 4K masters** are worth to **Uncover's edit and Rothy's-facing quality**—not a race to the lowest day-rate comparable.

2. PRICING PHILOSOPHY (VALUE-BASED OFFER)

*Optimize for willingness to pay tied to **outcome certainty**, not for maximizing "yeses" from the cheapest quote.*

Model	How this proposal treats it
Cost-plus	Internal floor only. Stakeholders buy **reliability of insight capture**, not our cost sheet.
Competitor-based	Not the primary anchor. "Average videographer" rates underprice dual-system audio, DIT, 4K60 volume, research-grade handoff.
Value-based	**Primary.** Price tracks reshoot risk removed, editor time saved, brand-safe execution with affluent participants per your brief.

Tiers — different certainty, different WTP: Premium = anchor / max verification. **Standard** = recommended balance. **Lean** = 48h handoff, pragmatic verify. **Order:** Premium → Standard → Lean (high-ticket anchor so the middle is compared to maximum certainty).

Customer surplus: the gap between fee and **cost of failure** (lost participant, edit chaos, delayed insight, weak audio). Priced to **over-deliver on capture discipline** and sustain W-9 economics.

3. UNDERSTANDING OF YOUR PROJECT (BRIEF)

- **Objective:** Understand how affluent, style-conscious women evaluate design and style signals—captured as professional video for Uncover's editorial team.
- **This engagement: Scottsdale, AZ** — **April 14–16, 2026** (per your field schedule for this market).
- **Capture types:** In-home ~90-minute deep dives (closets / wardrobes); elegant moderated loyalist dinners; detailed aesthetic B-roll (closets, wardrobes, outfits, shoes, textures).
- **Technical & logistics:** 4K, 60fps, 16:9. **Local** vendor — **Scottsdale-area production** (no vendor airfare). Pass-through **itemized**; within brief **10% of labor** if applicable. Hard drive to editor **48h** of wrap; **Net 30** where applicable.
